Mobile Green Belt Workshop

„Mobility, conservation, cooperation“
September 17th – 24th, 2011, Germany

Background and goals

The idea of this mobile workshop is to give partners from the Green Belt a chance to visit areas along the Green Belt in Germany where the Green Belt has been implemented for several years. During the workshop we want to explore means and potentials for low-energy mobility, conservation and education activities at the Green Belt in Germany.

Goals:

- exchange of experience concerning sustainable tourism development, low-emission mobility, site conservation and education
- develop ideas for implementation in other parts of the Green Belt (future project ideas)
- get a picture of the Green Belt where it is already partly implemented in the field

Harz: Narrow gauge railway

Elbe: Borderland museum

Elbe river: cycling the borderland

Overview

Date	Region	Host(s) & Speakers from	Activity
Sa. 17/9/2011	Arrival to Bad Harzburg (near Hannover) & Get-together		
Su, 18/9/2011	Mount Brocken, Harz National Park	BUND Lower Saxonia	Hiking tour
Mo, 19/9/2011	Elbe River Flood Plains Biosphere Reserve	BUND Saxony Anhalt & Biosphere Reserve Admin.	Biking Tour
Tu, 20/9/2011	Lake Schalsee Biosphere Reserve	Biosphere Reserve Administration	Biking Tour
We, 21/9/2011	Baltic Sea Coast	BUND Mecklenburg Western Pomerania	Beach Hike
Th, 22/9/2011	Rostocker Heath City Forest	City Forest Administration	Walking Tour
Fr, 23/9/2011	Rostock City	BUND Mecklenburg Western Pomerania, See programme below	Final Workshop
Sa, 24/9/2011	Departure from Rostock City
